Notice Concerning Debt Financing and Repayment

TOKYU REIT, Inc. (“TOKYU REIT”) today announced its decision to undertake debt financing and repayment, brief details as follows.

1. Debt Financing

(1) Rationale

TOKYU REIT undertakes debt financing for procurement of funds to repay long-term debt financing becoming due date. In an effort to ensure stability in connection with the procurement of funds, TOKYU REIT has adopted the strategies to convert its debt financing to long-term fixed interest rate borrowings and to disperse repayment dates.

(2) Details of Debt Financing

Classification	Long-Term Debt Financing	Long-Term Debt Financing	Long-Term Debt Financing
Lender	Mizuho Corporate Bank, Ltd.	Mitsubishi UFJ Trust and Banking Corporation	Development Bank of Japan
Debt Financing Amount	¥2,000 million	¥1,000 million	¥5,000 million

Investment Corporation Bonds	10,000	10,000	0
Interest-Bearing Liabilities	83,000	83,000	0

Reference

1. Interest-Bearing Debt Ratios after Debt Financing and Repayment

Interest-bearing debt to total assets ratio	41.0%
Interest-bearing debt to total appraisal value ratio	35.2%
Long-term interest-bearing debt ratio	79.5%

* The above interest-bearing debt ratios are calculated using the following formulas:

Interest-bearing debt to total assets ratio (%) = Total interest-bearing debt ÷ Total assets × 100

For total assets, TOKYU REIT adopts the estimate for total assets on the close of the 10th financial period announced as of the 9th financial period settlement, considering debt financing and repayment already undertaken during the 10th financial period together with the debt financing and repayment amount that is the subject of this press release.

Interest-bearing debt to total appraisal value ratio (%) = (Total interest-bearing debt + Security deposits and guarantee money without reserved cash) ÷ (Total estimated value of specified assets as of the period-end or total appraisal value as of the acquisition date) × 100

The total estimated value of specified assets is the total appraisal price as of the 9th period-end (January 31, 2008).

Long-term interest-bearing debt ratio (%) = (Long-term debt + Investment corporation bonds) ÷ Total interest-bearing debt × 100

** Percentage figures are rounded to the nearest first decimal place.
