Purpose for Temporary Investment Management Fee Reduction

**“Being in the same boat as unitholders”
Management fee structure designed to mitigate conflict with investors**

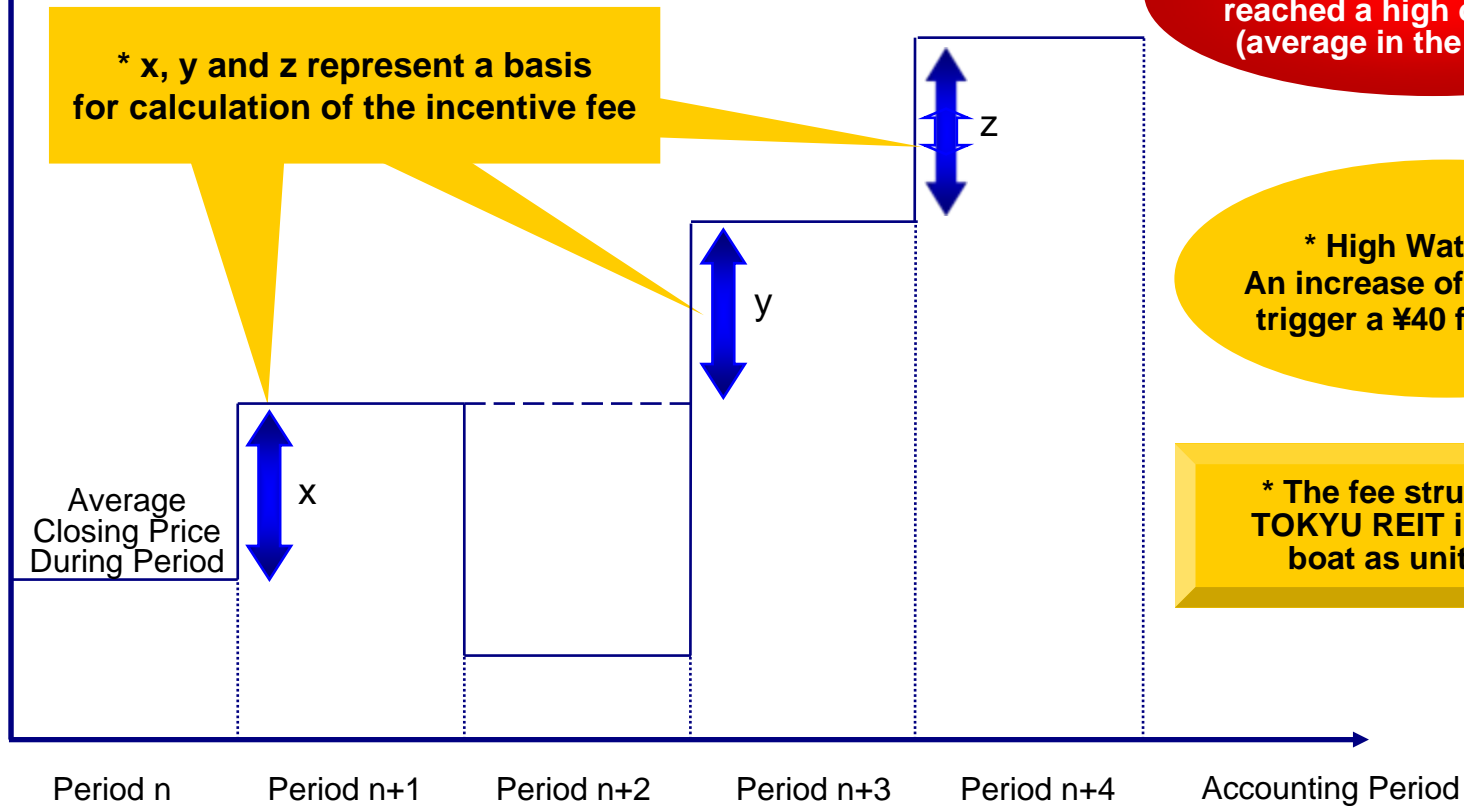

Although not deemed as resources for dividends, funds that were not used for additional measures to counter credit risk are booked as profits and paid out as dividends.

*This page represents the view of Tokyu REIM.

Incentive Fee Structure

* The incentive fee arises only when the average investment unit price during the period exceeds the historic high (high water mark).

Average Closing Price
During Period

* As of the end of the last period, the unit price reached a high of ¥1,241,537 (average in the 8th period).

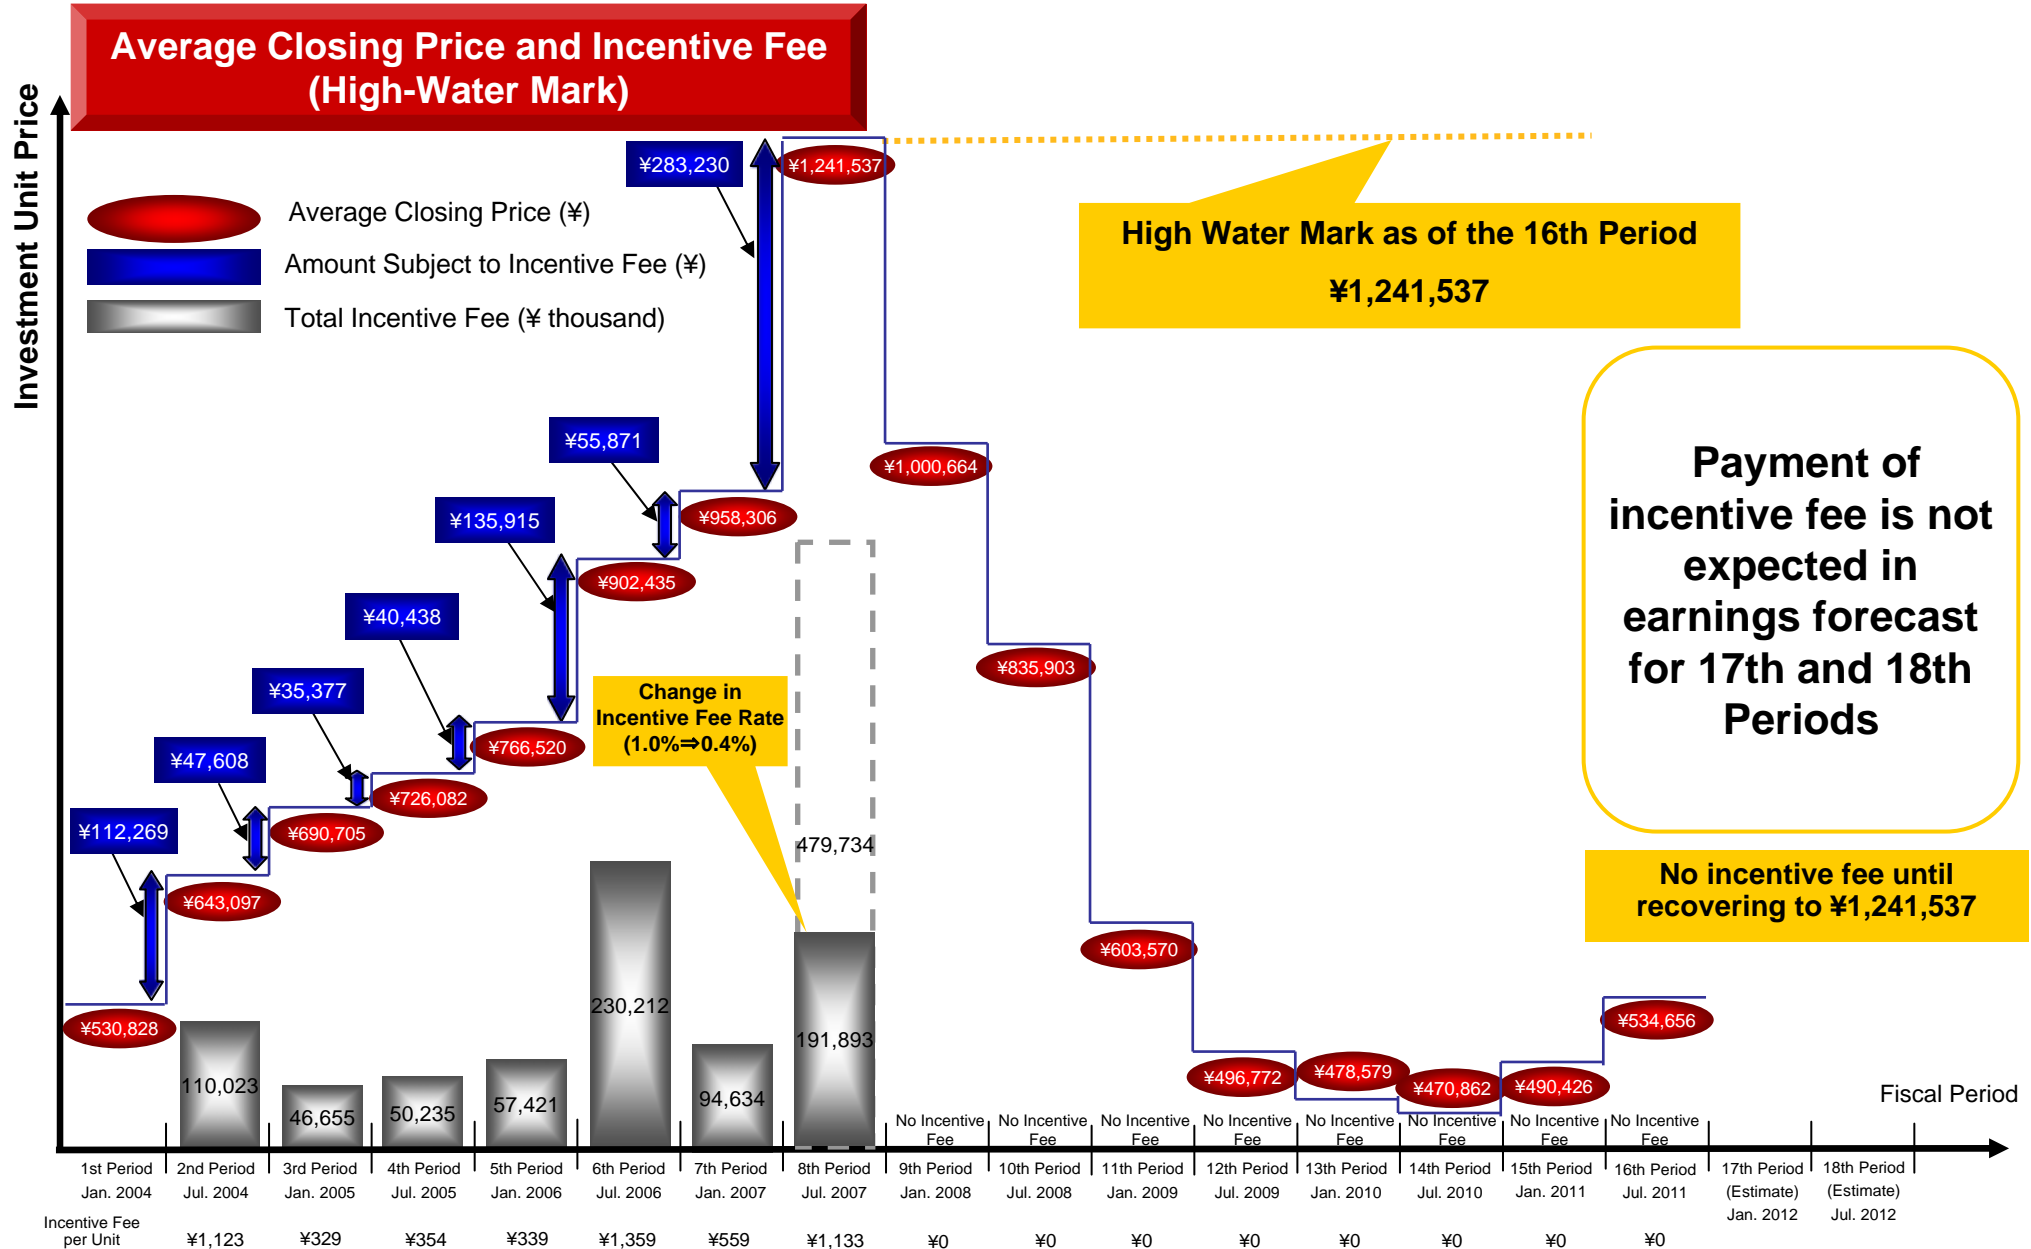

* High Water Mark:
An increase of ¥10,000 will trigger a ¥40 fee per unit.

* The fee structure puts TOKYU REIT in the same boat as unitholders.

Incentive Fee = Number of Units Outstanding at End of Previous Period x (x, y or z) x 0.4%

Governance: “Excellent Governance as a Source of Competitiveness” (1)

1. World-class “stricter” governance structure while paying attention to the pass-through feature

Concept: Maximize supervisory function of the Board of Directors and the Board of Auditors under the governance structure while maintaining a system that takes advantage of the Executive Director who also serves as the CEO of the investment management company

- (1) Related-Party Transactions (Rules to ensure higher transparency & market-based pricing of related-party transactions that are linked to close collaboration)
 - Pre-approval only by Supervisory Directors and active use of third-party opinions to avoid conflicts of interest

 - Disclosure of agenda for Board resolutions
- (2) Board Management
 - Appointment of Supervisory Directors who actively exercise governance
 - Active discussions
- (3) Investor Relations
 - Avoid deterioration of governance structure through proactive disclosures and IR efforts
- (4) Management Fee
 - Adoption of incentive system so that the Investment Management Company is in the same boat as investors “Appraisal value of portfolio assets,” “Cash flow of TOKYU REIT,” “Fee structure linked to price of investment unit”
