(Note 3) For additionally acquired properties, Appraisal NCF Cap Rate on Acquisition indicates the figure on initial acquisition

(Note 4) Yokohama Yamashita-cho Building (Bameys New York Yokohama Store), Resona Maruha Building and Ryoshin Harajuku Building have been sold.

(Note 5) Direct capitalization approach wasn't applied for Appraisal Value on Acquisition of OKI System Center (sokochi). Therefore, discount rate based on DCF approach is indicated in Appraisal NCF Cap Rate on Acquisition.

- * The figures are based on the entries in engineering reports, design documents, etc. at property acquisition.
- * Please refer to the “Properties” section of TOKYU REIT’s website for the property location and other detailed information on each property.
- * Properties other than the above are omitted because there is practically no extra floor area ratio (at acquisition).
- * As utilization of the extra floor area ratio (at acquisition) is restricted by various laws and regulations, as well as post-redevelopment cash flow projections and other economic conditions, the above does not guarantee implementation of redevelopment or extension/alteration of the building utilizing the extra floor area ratio (at acquisition).
- * As the upper limit floor area ratio and each property’s floor area ratio are subject to change due to revision of laws and ordinances or status of use of the property, the extra floor area ratio (at acquisition) may not necessarily be the same as the extra floor area ratio at present.
- * The figures are rounded to the nearest whole number.

As Shonan Mall Fill is a *sokochi* (ownership of land with a fixed-term leasehold for commercial use) property, there is no possibility that TOKYU REIT will conduct redevelopment or extension/alteration of the building utilizing the extra floor area ratio (at acquisition).

However, the figures are provided as reference for the future possibility of redevelopment or extension/alteration of the building being implemented by the lessee.

[Reference Information]

TOKYU REIT Hatchobori Building’s floor area ratio (at acquisition) is 895% against an upper limit floor area ratio (at acquisition) of 600% (*kizon futekikaku* (real estate that no longer conform to the law but are not categorized as illegal structures)).

Accordingly, a building of a similar size to that now may possibly not be able to be constructed upon its reconstruction.

* High Water Mark: An increase of ¥10 000 will trigger a ¥40 fee per unit.

Incentive Fee = Number of Units Outstanding at End of Previous Period x (x, y or z) x 0.4%
